

Create your own green challenge fundraising page and tell the story behind your challenge. Describe how your actions will have a meaningful impact on the planet, and why you are choosing to support WWF-Canada's conservation work.

Set your fundraising goal high. You will be amazed at what you can achieve.

Share the link to your green challenge fundraising page through email or social media, and use event posters to spread the word in your school, office, community center or around your neighbourhood.

Dare your friends and family to take up the challenge and join your team, or make a donation that will help you reach your fundraising goal. A donation of \$10 or more will receive a tax receipt.

Say thank you to everyone who took up your challenge or supported your fundraiser.

WWF-Canada will send you a thank you package in the mail. Please note these may take up to 60 days to process.
